

Dr. David Moore

Dr. David Moore is a 22-year resident of Marion, Indiana. Born in Indianapolis, Moore received his doctorate in medicine in the OBGYN practice, and moved to California in 1978. After 16 years, he decided to move to Marion, Indiana to be near his family again.

“I’ve grown to have a deep love for Marion,” said Moore. “I believe in the spirit of altruism.” Moore is a devoted member of the Iron Men’s Ministry, a local men’s group which meets weekly to support one another.

About one year ago, Moore started the volunteer group, MPower, dedicated to assisting and mentoring at-risk youth. This group recently completed a community garden project at 35th and Carey St., revitalizing two vacant lots, while teaching youth life lessons, and rewarding them for their hard work.

Moore is a true champion for youth empowerment in the community and hopes to expand the program to assist adolescents and young adults.
